

BLACK ROAD CHRISTMAS TREE FARMS

Wholesale Information

What varieties of trees are available?

- * We grow primarily **Douglas Fir** intermixed with **Grand Fir** and **White Fir**. We also have a few areas of **Sierra Redwood** trees.
- * Our trees range from **5 to 14 feet** (a few exceed 14 feet).
- * We prune for **full, fat trees**. In our experience, those are the most in demand.

How does the process work?

- * **Call Robbie Criswell (the owner) at 408-354-8472.** Robbie is usually working in the fields, especially in October and November, so leave a message if you get the answering machine. He will return your call as soon as possible.
- * **We will select the field** based on tree availability and accessibility due to weather conditions.
- * **Our fields may be inspected by appointment** if desired.
- * **We will select and cut the trees after you arrive.** You will use our counter to tally the number of trees as they're cut.
- * **With advance notice, we can arrange to haul the trees to your truck.** We will work with you to load the trees onto your vehicle(s).

What is the cost? What payment options do we accept?

* Wholesale customers receive a discount for multi-tree orders. **Call 408-354-8472 for current wholesale pricing.**

* **Payment is due at the time of tree cutting. We accept cash or a cashier's check.**

When can we come out?

* **Wholesale cutting can be scheduled Tuesday through Thursday.** We do no wholesale cutting on weekends.

Do we offer nonprofit donations?

* It depends. Although we do not clear-cut any areas, we do thin specific fields each year. When that happens, **we may donate a limited number of trees to nonprofit organizations.**

* If you are a member of a nonprofit group, please **call 408-354-8472 for availability** and additional information.

Please be prepared to provide the following information when you call:

- Name of your business or organization
- Your nonprofit status
- Your name and phone number
- The number of trees needed
- Your preferred day to inspect the fields (if applicable)
- Your preferred day for cutting/transporting the trees
- The type and number of vehicles you will provide for transporting the trees
